

THE CORNWALL AND ISLES OF SCILLY MARITIME ARCHAEOLOGY SOCIETY

Wessex Archaeology is currently visiting a number of the protected wreck sites around Cornwall for DCMS / EH. The sites include Royal Anne Galley, St Anthony, Schiedam, Rill Cove, Loe Bar and others. Wessex will be based in Penzance from next week and any interested CISMAS members will have an opportunity to meet the Wessex team. There will be an evening tour of the Wessex Archaeology diving boat Xplorer on Thursday 23rd September at 7:30pm. If you would like to attend then please email me by 20th September at the latest.

As you know we will be in Scilly from 4th September for two weeks working on the Colossus debris field survey. I will circulate a small report on this work on our return. We also hope to have the web site up and running before the end of October – all the reports will be available to download from the web site.
